Subject: Re: ALASKA St.Eustatius

George,

As below:

Is there 1.0% RMG380 available in Kingston? (the most convenient port along the way from St.Eustatius to the Owners entrance in a US ECA port/location).

No 1.0% in Kingston and no other port without a substantial deviation (Trinidad or Freeport Bahamas).

Is bunkering permitted at Corpus Christi Lightering Area which is the Owners first entrance to a US port/ECA location after St.Eustatius?
Bunkering would be allowed, however no supplier will go there. Most of these ship only go as far South as GOLA.

Kind Regards,

Zachary S Fisher
